# SDG Coordinated Audit Target 2.4

## SDG: TARGET 2.4

### SUSTAINABILITY IN FOOD PRODUCTION

- Resilient agricultural practices
- Productivity
- Ecosystems maintenance
- Adaptation to climate change and disasters
- Land and soil quality

## AUDIT OBJECTIVE

Supreme audit institutions (SAIs) from 11 countries have evaluated their national government's preparedness in order to implement the SDGs

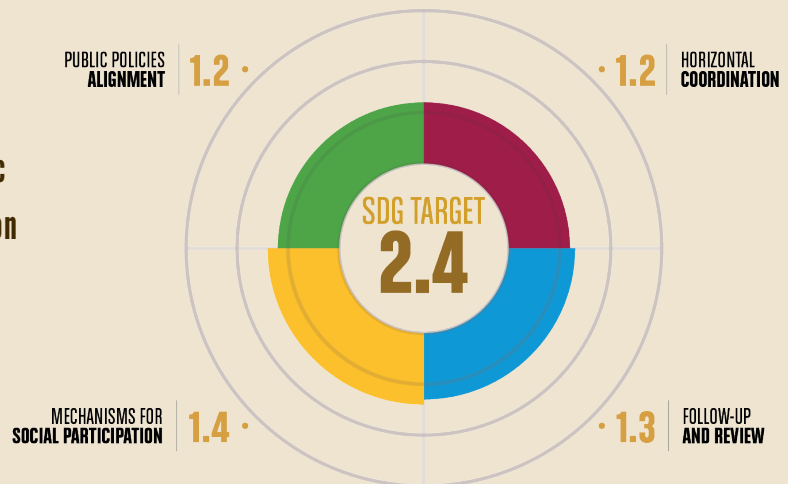

Under a  
**Whole-of-Government Approach**

## RESULTS

### SDG RADAR

- Vulnerabilities in the coordination of public policies related to sustainable food production
- Vulnerabilities in the follow-up and review of public policies

## SAIs' RECOMMENDATIONS TO GOVERNMENTS

- Establish mechanisms for coordinating and promoting coherence among policies
- Strengthen the integration of public policies follow-up and review
